

## Trees on Farms - Field Day - Secondary

Spend the day on a farm exploring trees and their place within the whole farm system. A hands on and dynamic excursion designed for secondary students. Understand the importance of trees, how they function, grow and change and their role on a farm. Field days will be tailored to your learning objectives and needs, with opportunity to integrate different experts across the farm.

### Investigations could include:

- Growth and development of plants (native forest and plantation cycles)
- Maintaining soil health, water quality and biodiversity values
- Aesthetics & Economics
- Ecosystem health and whole farm management
- Restoration and other benefits
- Sustainable practices
- Field to fibre & career pathways
- Shelter belts and Biodiversity planting

- The FEF is staffed by qualified and experienced teachers.
- All activities support the Australian Curriculum and integrate STEM learning opportunities.
- The FEF will provide all the equipment needed for student activities.
